GROUP 3000

Dear Sir:

Pursuant to the duty of disclosure provided by 35 C.F.R. § 1.56 and §§ 1.97-98, the applicants wish to make the following reference of record in the above-identified application. A copy of the reference is enclosed. A copy is also listed in the PTO-1449 form enclosed herewith. It is requested that the document be given careful consideration and that it be cited of record in the prosecution history of the present application so that it will appear on the face of the patent issuing from the present application.

Portions of the reference may be material to the examination of the pending claims, however no such admission is intended. 37 C.F.R. 1.97 (h). The reference has not been reviewed in sufficient detail to make any other representation and, in particular, no representation is intended as to the relative importance of any portion of the references. This Statement is not a representation that the cited reference has effective dates early enough to be "prior art" within the meaning of 35

Examiner's first report on patent application no. 22765/01
by CHICAGO BOARD OPTIONS EXCHANGE

Last proposed amendment no. 1

Dear Madam/Sir,

I am replying to the request for examination. I have based this report on the pamphlet and the statement of proposed amendments under S104 of 3 October 2001. I have examined the application and I believe that there are lawful grounds of objection to the application. These grounds of objection are:

1. The invention defined in claims 1 to 8, 10, 14 to 30 is not novel when compared with the following document which discloses all the essential features of the invention claimed: US 5101353 A(LUPIEN et al) 31 March 1992, Refer to *inter alia* the abstract, column 2 line 60 to column 3 line 14, column 3 line 46 to column 4 line 36.
2. The invention defined in claims 9, and 11 to 13 introduce specific forms of aggregate risk level calculations that I consider are non-inventive to a person skilled in the art (PSA) and that these features are minor workshop variations to the inventive concept well within the realms of the PSA. The problem solved by these claims is to determine the level of risk using a specific risk aggregate analysis that that I consider to be within the knowledge of a non-inventive stock broker with knowledge in statistics and computing.

You have 21 months from the date of this report to overcome all my objection(s) otherwise your application will lapse. You will need to pay a monthly fee for any response you file after 12 months from the date of this report.

Yours faithfully,

ROBERT BARTRAM
